Speciality Cases

Our soft pouches and universal fit wallets are an ideal solution for mobile device protection.

RFID SOLUTIONS

Contactless payment and keyless car fobs are great innovations, but criminals can now steal your car and data using your devices wireless connectivity. Radio frequency identification (RFID) readers can download all your data, know as 'digital skimming'. Our products blocks those readers, keeping your car and data safe.

Introducing the Stylish, Robust Multi Wearable Mobile Accessory...

Wearable Mobile™ has been designed by professionals for professionals.

For those who need to remain in mobile contact; from NHS staff, Healthcare, Engineers, Airlines, Security and Police, to Sporting Professionals, Ground-crews, Events crews and Backpackers.

wearable mobile™

Patent Pending

What's the problem?

- Mobile phones are easily lost, misplaced, damaged or stolen during a hectic day.
- Storing your phone in a pocket isn't ideal, there are many risks, such as; overheating, damage from the phone falling out or bending from sitting down and pick pockets.
- If you struggle to find your phone in a carry bag or back pack, or pockets are too small for your phone, this is your solution.

Wearable Mobile™ is the Solution

- Enables you to have your device accessible at all times.
- Quick and easy access, attach to Lanyard, Belt or Bag Loop.
- Lightweight and robust with a stylish design, enabling you to wear it on a lanyard for long periods of time, keeping your hands free.
- The copper centre lowers the risk of overheating from body heat especially during hot weather.

AUDIO SOLUTIONS
