UK Legal Alcohol Levels

| | | |
|------------------|------------------------------------|---------------------------|
| England & Wales | 80mg of alcohol per 100ml of blood | 25mcg per 100ml of breath |
| Scotland | 50mg of alcohol per 100ml of blood | 22mcg per 100ml of breath |
| Northern Ireland | 60mg of alcohol per 100ml of blood | 25mcg per 100ml of breath |

DRIVE SAFE CAMPAIGN

- The most technically advanced single use disposable breathalyser in the world. No larger than a cigarette, it's the **ONLY** single use product to accurately alert at more than one level of intoxication.
- In 2016 an estimated **24,101 people were killed** or seriously injured in drink driving accidents a 7% rise from 2015.
- Drink driving offences can stay on your driving licence for **11 years from conviction**, affecting your car insurance, potentially the risk of losing your licence and your job.
- Approximately **85,000 people are convicted** of drink driving related offences each and every year in England and Wales alone.
- An average of **3,681 people were seriously injured** in drink driving related accidents in Great Britain alone.
